Pivotech is a brand of Aluminium Industries of Australia Pty.Ltd. www.alumind.com.au

phoenix series - fully framed

For more than 20 years, Pivotech has produced a range of shower enclosures that set the standard for craftsmanship and value for money.

Bathroom design is a fashion business and our design team continue to expand our range of products, meeting the ever-changing needs of our customers and ensuring that Pivotech products are both fashionable and functional. Using the highest quality materials, our systems continue to be an investment in quality and style. Phoenix shower enclosures are designed with the versatility to adapt to numerous applications and configurations, combined with the ease of installation and quality of components that our customers rely on. Elegance without compromise – designed simplicity.

phoenix - fully framed 90°

The Phoenix series represents the ultimate in fully framed shower enclosures. The smooth contoured profile is easy to clean, yet strong enough to provide many years of elegant service.

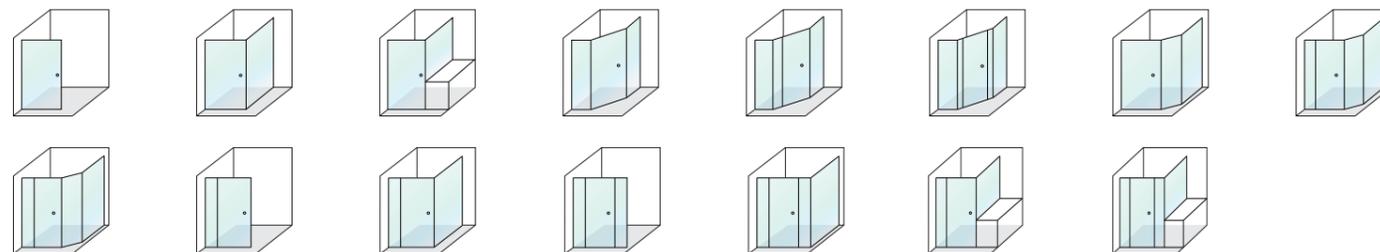

phoenix - fully framed 45°

45° enclosure allows more flexible use of available space. This configuration allows the placement of vanity and toilet on either side of the screen without compromising the door opening.

phoenix - fully framed 90° with panel

The addition of an infill panel allows the Phoenix to be enlarged to suit even the largest bathroom, while keeping the door at a convenient size.

configurations

features

full length handle

The unique Phoenix full-length moulding is integrated into the door design - creating an extremely strong handle that is convenient to use, yet remains stylish and visually unobtrusive.

optional plastic handle

An optional plastic handle is available to provide a larger grip area.

optional door gutter

The door gutter allows excess water to run back into the shower area when the door is open.

proven design

The Phoenix fully-framed shower screens are ideally suited to any bathroom. Their robust construction guarantees years of trouble-free service.
